Report of the Director of People

Agenda Item No: 9
Meeting: 3 October 2013

NORTH LINCOLNSHIRE COUNCIL

HEALTH AND WELLBEING BOARD

INTEGRATED WORKING PARTNERSHIP

1. **OBJECT AND KEY POINTS IN THIS REPORT**

1.1 To update the Health and Wellbeing Board on the work of the Integrated Working Partnership

2. **BACKGROUND INFORMATION**

2.1 The Integrated Working Partnership (IWP) continues to meet on a monthly basis chaired by the Director of People North Lincolnshire Council.

2.2 This report provides an update of the work of the IWP.

3. **OPTIONS FOR CONSIDERATION**

3.1 The June meeting of the IWP was used to focus on the development of the expression of interest for Integration Pioneer status agreed to be developed at the last Health and Wellbeing Board (HWB). (The pioneer bid has been used as the basis for the integration statement for the HWB which will be completed following an integrated working workshop in November 2013).

3.2 Subsequent meetings have focussed on the development of action plans to put in place the requisite arrangements to deliver:

- a whole system approach that would see integration at every level of service i.e. universal, targeted and specialist services .
- integration to be a feature of provision across all life stages from maternity to end of life
- transformation of services to result in improved outcomes for all service users.

3.3 The initial work has focussed on three distinct life stages as described in the Expression of Interest:

- Conception to two years
- Young people who are vulnerable to risk taking behaviours aged 13+
- Frail adults including those who are older

3.4 Three working groups have been identified to take develop and implement the action plans:

- The Early Help Group
- The Families Initiative Group
- Frail Adults Group

3.5 The core elements of the three actions plans are:

- To agree what the integrated system looks and feels like from a service user and staff perspective,
- To agree what the values and principles of Person Centred Co-ordinated Care are and to understand the workforce development needs?
- To describe and quantify the needs of each of the population groups and to set out what the "integrated offer" will be at each level of need (universal targeted and specialist).
- To map what is currently happening across Health and Social Care including other partners across the three life stages
- To maximise capacity to manage the workload
- To agree the risk framework and assessment tool for all agencies.
- To commence and build a glossary of terms to create a common language and enhance our understanding of each other and the unique contributions we bring.
- To create the integration narrative to engage the workforce and agree the key messages ie:
    - One assessment one plan one team,
    - Right service right place right time
    - Quality not quantity.

4. ANALYSIS OF OPTIONS

4.1 Progress to be noted by the HWB

5. RESOURCE IMPLICATIONS (FINANCIAL, STAFFING, PROPERTY, IT)

5.1 None as a direct consequence of this report. As the plans are developed and implemented there may be an impact on the use and distribution of resources both financial and human

6. OUTCOMES OF INTEGRATED IMPACT ASSESSMENT (IF APPLICABLE)

6.1 As plans are developed there will be an Integrated Impact Assessment undertaken to ensure all service users are treated fairly.

7. OUTCOMES OF CONSULTATION AND CONFLICTS OF INTERESTS DECLARED

7.1 None

8. RECOMMENDATIONS

8.1 Health and Wellbeing Board to note the activity undertaken through the Integrated Working Partnership since the last HWB meeting
