# PROSPEROUS COMMUNITIES FUND

## Criteria and guidance

North Lincolnshire Council recognises the role and importance of local groups and organisations in delivering on priorities in local communities, which in turn help to make North Lincolnshire an excellent place to live, work and play.

The Council has created the Prosperous Communities Fund with a view to encouraging and supporting communities who wish to strengthen their local community through the provision of facilities, for local people.

### Who can apply for the fund?

The council will work with partners to identify and prioritise schemes which will improve existing or deliver new community facilities. The fund will support the following organisations if they are non-profit making and have social aims:

- Junior and Youth Groups (registered with North Lincolnshire Council)
- Charitable bodies
- Trusts
- Co-operatives
- Industrial and provident societies
- Not for profit constituted organisations
- Town and parish councils

### What kind of activity will be supported?

We are looking for applications which:

- Are rooted in the community, are genuinely community-led and give the community a stake in local decision-making
- Are connected to other organisations and services in the community
- Show clearly the changes that will take place and why this is the best way to deliver these changes
- Show the developments will be sustainable.
- Will help deliver Council priorities: Details of the current council priorities can be found at [northlincs.gov.uk](http://northlincs.gov.uk)

### Examples of Capital Projects that may receive support include:

- Playing fields/sports, arts & heritage facilities
- Children's playgrounds
- Community buildings
- Major equipment

## **How much will we fund?**

- Although we encourage match-funding in applications, we can fund up to 100 per cent of project costs. Awards will not exceed £150,000 for any one project (unless under a specific and identified exception).
- Applicants will be encouraged to contribute their own funds to the project and use the offer of council funding to draw down other grants and funds to enhance the project.
- Full business case needs to be submitted demonstrating need and strategic links to the Authority's outcomes.
- Grant aid will be based on the estimated net cost of the work involved. Any VAT payments will only be covered by grant aid if they are non-reclaimable.
- For contributions to new buildings, applicants need to demonstrate that they have exhausted potential sharing of/re-use of existing premises.
- Applicants need to demonstrate that they have explored alternative funding routes such as sporting bodies, community organisations and/or raising precepts.

## **Important things to note**

1. Each application will be considered on its own merits.

Consideration will include
